

GENERAL PRACTITIONER FORM

MS Therapy
Centre (NW)

Patient Name:.....

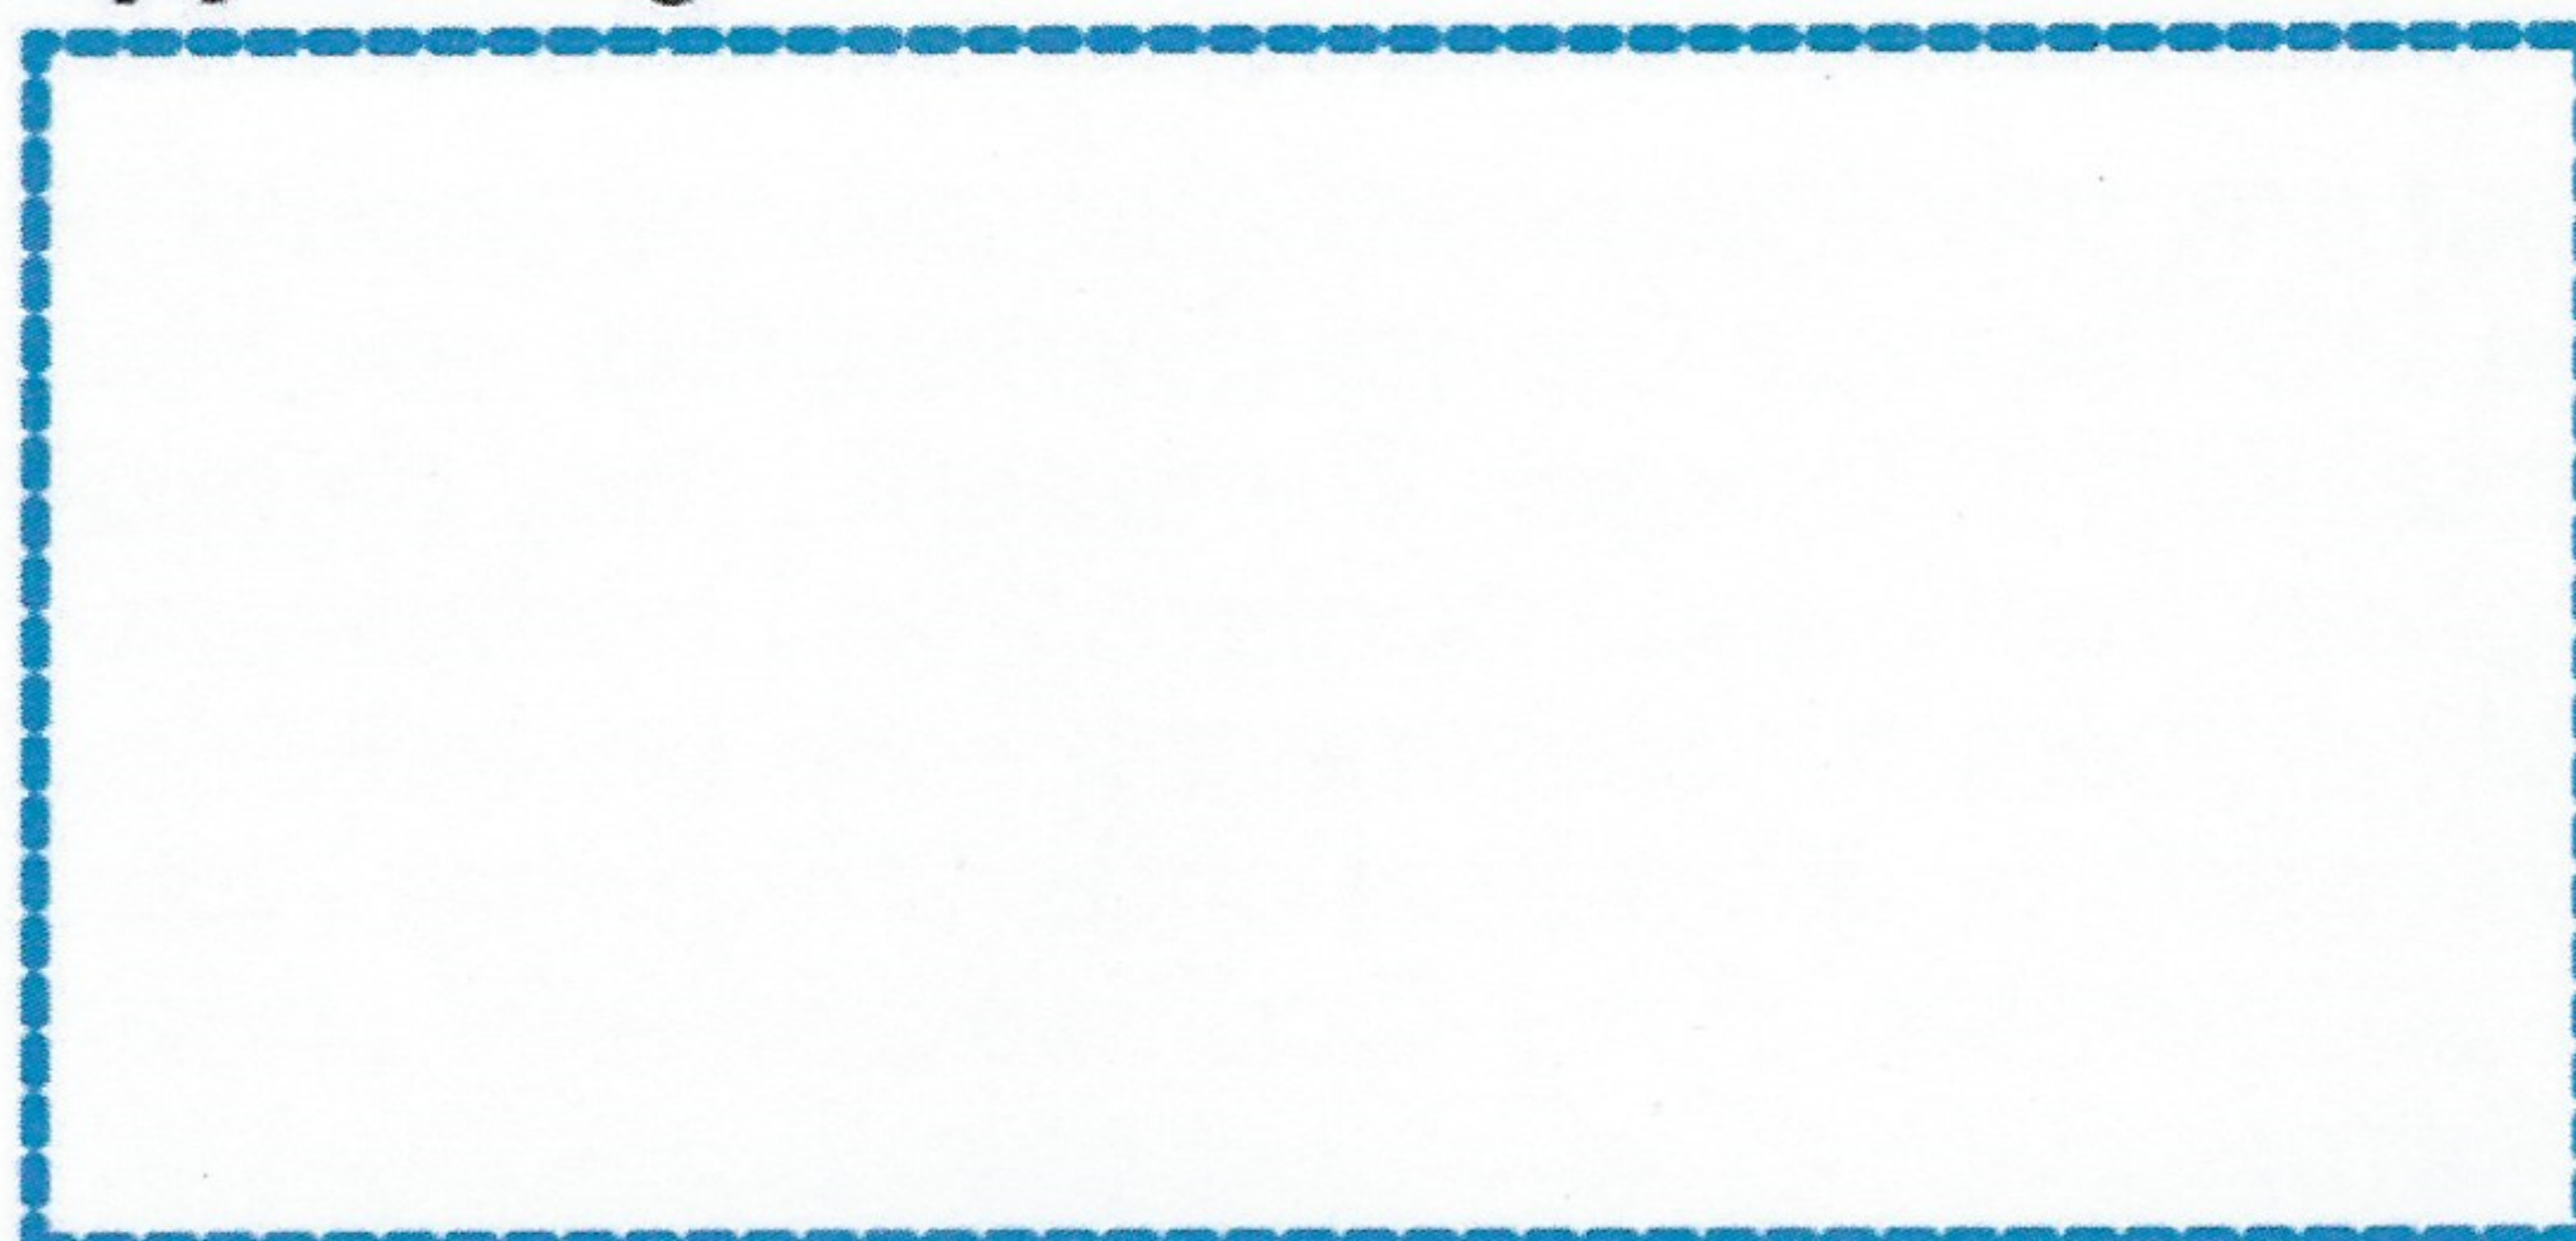

The above named patient has requested Oxygen Treatment on a self-help basis, at our centre.

We in compliance with published guidelines, wish to enquire if you are aware of any reason or medical condition that in your opinion, would prevent this person from undergoing oxygen treatment in our barochamber?

Your implicit compliance is not a referral and does not indicate any endorsement of treatment. Should further information be required; please contact our Honorary Medical Adviser Prof. Philip James, Emeritus Professor of Medicine, consultant in Hyperbaric Medicine, University of Dundee.

Should you require any further information regarding our service, please contact us at: info@mstherapynw.org

PRACTICE STAMP:

There are over sixty MS Therapy Centres in the UK and Ireland operating on a charitable basis that offer a range of therapies and services to assist in the management of MS and other medical conditions.

Since 1982 in excess of five million Oxygen sessions have been provided nationwide, without any significant incident. All Oxygen Treatments offered at this facility are supported by recognized evidence based controlled trials

This facility is a member of the MSNTC.
